GUERRILAs -Last week about four hundred guerrillas were camped near Red Clay, Tenu., rebbing, stealing and threatening to murder every Union min in the country. Instances of the most brutal treatment to loyal men and women could be in utloated if necessary. They have drove off almost every norse, ex and wagon in the land where they have been. In some cises they look off the last pound of meat and nearly all the corn some of the citizens had-taking the men's wagons and teams to haut off their bacen and corn in. In addition to this they captured every negro man, woman and child they got hold of and took them off. They got five women and children from one mon; in all some eight or ten negroes in the imm diate eighborhood of Red Chy.

They had a sale in Murray county, Georgia ast week, where they sold their stolen prop rty, and the sale amounted to thirty-five thonand dollars. They have again returned, and vill report their mean acts, when and where ever they can.

MORE MURDERS .- The Knexville Whizeave Mr. Hickey, a Union man, has got in from Carter county, and he brings a heart rending ecount of the mur ers and robberies commilled by the rebel guerrillas-their soldiers have all lurned guerrillas and bushwhackers A lew days and they conveyed to Brietol three Federal soldiers and shot them simply because they were Federal soldiers. One of them was on Ohio soldier, who had escaped frem South Carolina, and a second was a Mr. Leonard, of

sconting party last week, and the Coptain \$600 or \$700. and four of his men were brutally mardered by Vanghn's guarilles of er they had been antured. Their treatment is represented to ne by a Union man from the neighbothood as arberous in the extreme.

Ter, thousand dollars would not probav cover the losses rustained by the cliveus of Cairo in thirty six hours by sol liers on the Sih Instant Lat it be understood that the command cannot be accused of complicity in head lawless acts-only a nortion of two or three regiments. The following list of lesses were picked up in a few moments and comose but a tithe of the whole : L. Wall, jew Her, Eighth street, \$1,500; Hamilton and Reille, bats and caps, \$400; J. A. Brirgton gans and mistale, \$200; Con. O'Callahar ardwares, \$100; P. Chapman, grocer, Camel everue, \$100; Wm Parker, levee, annt and oot stores, \$50; Ravuolds, Commercial avene, tobacco, \$150. The amounts of the losees as near as may be, Provost Marshal Blake says, will be deducted from the pay of the soldiers commetting the depredations. Some of the

men have not had pay for several months. PRISONERS -The following rebel citizens of Scorgia were brought into Chattanooga a few lays ago by a detachment of the Sixth Tenessee infantry: Ezekiel Burns, John Elleuourg, Perry Looner, Josiah McEatire, John Edge, John Rogers, Alexander Smith, J. C. Austin, B. H. Condney, Nelson Israel, W. P. Purley, J. McClair, G. W. Eslinger, Mills Crose, W. J. Singleterry, John Stancel and J. J. Swansor, and three women named Mrs Hames, Mrs. Perkins and Mrs. Fisher. A felow named Meredith Ellenburg, belonging to Jim Edwards' gang of guerrillas, who are oncrating in the vicinity of Ringgold, is also in

TRUCE .- A flig of truce was sent by the rehels to our picket lines at Columbus, Ky on the 7.h inst. It came under pretext of making arrangements to co-operate with our forces in clearing Western Kentucky of guer rillas, but Col. Hicks, commanding the post, having good cause for helleving It to be ostensibly for another purpose, sent out a force which, on reaching Clinion, were attacked by the rebels posted behind a stockade. The rehels were routed and two of their number killed; twelve others, including a Lieutenant also twelve horses, were captured. The expedition returned without loss.

New oil companies are being formed weekly in Washington county, Virginia. Companies have been formed to hore at Clays rille, and at Coou Island, on Buffalo Creck. A great amount of land has been leased at Taylorstown, Cross Creek, Harman's Creek, King's Creek, Raccoon Creek and Peter's Creek, and the coming summer will be deelopad.

MURDER IN BUFFALO .- A man named Riley, in Baffalo, went home Intexicated, and not inding his supper ready, quarreled with his wife, knocked her down, and stamped on her face and stomach until he killed her, his little children looking on in horror. He was lmmediately arrested.

Two or three hundred coldiers were ent to their regiments from the hospitals in Madison a few days ago. A negre has been arrested in Chattanoogs, charged with killing a man by poison-

ing him. Seventy nine rebel prisoners were sent to Alton from St. Louis a fow days ago.

FROM WASHINGTON.

Important News from the South-Fac tions in the Republican Party-Disinclination of the Abolitionists to Continue the War-The Defenders of Butler Urge a War of Extermination.

[Correspondence of the New York News.]

WASHINGTON, Feb. 1. Some injelligence from the South of a high

Some intelligence from the South of a highly important untire has just reached this city.
It comes from parties whose opportunities of
knowing what they say are such that their
statements may be implicitly relied on. This
news is to the following effect:
The hopes of recognition by France, early in
March, which are now indulged in by the Confederate anthorities, are well founded, and
will be sure to be realized. Assurances to this
effect have reached the Confederate state Dapartment, from their agents in Paris, and it is
this that has caused the great decline in gold
in the South. But neither the Confederate
government nor the Southern people deepen
upon foreign recognition of foreign aid as
recessary in order to gain their independence.
Their resources, both in man and material,
including arms and ammunition, for earrying
on the war for years to come, are ample, and

including arms and ammunition, for earrying on the war for years to come, are ample, and the determination of the Southern people to continue the war until their independence is secured is unanimous.

This is now known, and acknowledged here to be the fact, by every person with the least pretensions to intelligence and candor. The few who deny it and who maintain the contrary, are persons of noir fluence or weight of character, and who would not helieve the truth although it were revealed to them by an angel from haven. Whether the existence of this fact may lead to peace is not yet clearly seen. This much is certain, however; that leading and influential members of the Republican party, the very men who all along and lican party, the very men who all slong and until recently have been the most bitter arshast the rebels, are now said to be urging the President to abate some of his conditions of peace which are known to be most offensive of peace which are known to be most offensive to the South, and to offer terms of peace to the South much more liberal than any which have herelofore been meutioned. Some of them, it is said, have even gone to the length of proposing to consent to a temporary separation and acknowledgment of Confederate independence, as the first step toward the formation of a more perfect Union.

It is said that a citizan of New York, high in favor with the President, a man whose consels have guided the executive mind on more than one momentous occasion, and

more than one momentous occasion, and whose it fluence with his own party is almost boundless, is urging this step as a sure means of ultimate re-union, and as the only means by which the scile intervention of France next March can be prevented. This gentleman is an eminent Abolillonist too; and and by those who know him hest, that he has taken this line of conduct for another reason also, namely, because he is cauvinced that the result of the war, so far, has been to piace the institution of silvery in the Scuth in the sure path of utilinate and comparatively spendy extinction; that no matter how the war may result now, silvery must dle; and that hely so satisfied, the Abolitionists of the North have no longer any motive for the function of the war, and are arerae to being compelled to support the hurdeus of he war any longer.

This is a point well worthy to be investigated, and either confirmed or exploded. If the abolitionists or radicals are really determined to withdraw their support from the war, it requires no prophet to foretell the consequences. And this is no doubt the secret of the flattering overtures which the Administrative here were reasoned for the property of the property said hy those who know him hest, that he has

it requires no prophet to foretell the concequences. And this is no doubt the secret of
the flattering overtures which the Administration have recently made to Gen. Fremont.
The radical and abolition element in the republican party is well worth conclusting; and
their cordial support would be cheaply bought
by a seat in the cabinet, or the mission to
France to General Fremont.

There is another class of men here, however, wanting geither in numbers nor influence,
who are neither upon the President a course of
conduct directly the reverse. Of those men
and their intrigues I speak positively and of
my own knowledge. They are the essential
apologists and defenders of the infamous Batler; it is they who are formetting the quarrel
between him and General Grant; and it is they
who put into his bead the ideas of hostility to
General Grant which found expression in his
recent speech at Lowell. The springs of their
relion are in their intense and blind hatred of
everything at the South. They covet the rich
ands and fertile plantations of the Suthern
people. Butler has promised them in his Fifth
Avenne Hotel speech that they should have
them by a fair division. What they want now
is a war of literal extermination; such a war
as Sheridan began lu the Shenaudoah Villey; a war of literal extermination; such a war s Sheridan began in the Shenandosh Villey; war that will leave the country hare of inhabitants.

FINANCE AND TRADE

OFFICE OF THE LOUISVILLE DEMOCRAT,

SAVERDAY EVENING, February II, 1883.

The past week has presented no new features as rerards our general markets, the only change being an gards our record interests on the part of holders of all articles. The demand for flour has been small, to supply the immediate wants of retail grocers and city bakers, and the sales have been confined almost exclusively to the finer grades. Lots could not be sold except at a deideddecline on the following quotations, and as holders re not willing to submit to any decline, the transacare not willing to suoms to any decime, the transactions, as we have stated above, are limited. We quote at 98 75 for superfine, 90 00 99 50 for plain extra, 910 000 10 25 for extra family and 910 000 11 50 for factory brands, according to the reputation of the brand. There has been no decided change in wheat during the pas week, owing to the very light-receipts what has ar-rived has been readily taken. We note sales of red from wagon at \$1 95 to \$2 00, and white at \$2 05 to \$2 12, the outside figure being paid only for choice lots. There is a continued good demand for new corn, and with the is a continuous and the small stock an hand, the market closed bnoyant, with rather an upward tendency in prices. To-day it could have been sold at \$1 12 for ear and \$1 16 for shelled from wagons. In Oats we have

offee, which closed firm at 45 to 45c. Pales have been suit their trade. made to the country trade at 25 to 27%c for New Orleans sugar in hids, and 27 to 27%c in bils; crushed and pounded sugars are firm at 30 to 31c, with a fair demand. The present week opened with a very dull provision market, and mess pork was drooping, with rather a downward tendency in prices, and holders spreared very auxious to realise, and if there had been any ouyers in the market it could probably have been pur-chased at \$37.25. Towards the middle of the week the market became much firmer, owing to the favorable advices from New York quoting an advance in mess pork in that city. At the close of the market to-day, mess pork was firm at \$53, which is the price asked by the packers. New bacon is in moderate request to the trade, with small sales at the following quotations: Shoulders 20c, rib eides 22c. clear sides 25c, piain hams

24c, and sugar-cured hams 25c. Lard is quiet, with but a small retail demand at 21 to 22c for therees and 24 to 25c for tess.

The money market is still under the influence of that extreme stringency which has characterized it for some length of time. Borrowers of all kinds find it a matter of impossibility to effect loans of any magnitude, and

have almost given up making applications.

In the money market there is not much fresh business. People are taking care of old engagements, not contracting new ones. Currency is scarce, with no im nediate progrects of an 'mprovement, Exchange also

continues scarce.
